Stemming from children CALL FOR WORLD-WIDE PEACE FOR CHILDREN

“Words born in the hearts of children have the power to stop war..”

Children, aim to draw a world map with words to stop the war.

Children's Opinion Against War

Children throughout the world are watching with bated breath as Russia attempts to invade Ukraine on February 24, 2022. For two weeks, the Third World War had been on the minds of the world's youngsters.

Based on the fact that no power, being in the first place, the United Nations Organization, could stop the wars, children propose "World Child Peace". "Words born from the hearts of children have the power to put an end to war." Based on this point - of - view, the children plan to draw a world map with words that will put an end to the war.

Children's views on stopping the war reaching to Children's Foundation (Turkey), World Children's Embassy, Humanity Defense Line began to be announced to the media and social media under the title of "Calls for World Child Peace Against War".

In accordance with the principle of respect for the child, with the permission of the children and their parents, opinions (including only their names and ages) in Turkish and English will be conveyed to UN Organizations, Embassies of countries, Human Rights Defenders and Non-Governmental Organizations.
